Great map.By RRHI had to give a presentation about a Missionary that lives in the Philippines during our churches Vacation Bible School this year, so I bought this as an illustration to show all the children where she lived and get a better grasp of the amazing country. This map was a great size to hang on the wall because it was big enough for them to see. It was a good quality and I was able to fold it back up and put it in it's pack it came in for future use. I would highly recommend this to any school teacher, Sunday School teacher, etc.3 of 3 people found the following review helpful. Large size.By ToyoWillyLove the large size and details.
