I would say I saved up to 30\$1 of 1 people found the following review helpful. yay!!!!By Aubra M.I was very happy with the condition of this book and especially the price. I needed it for a class and didn't feel like spending a fortune at the university bookstore. I ended up getting it for a fraction of the price and was still able to afford the expensive supplies that were also required for the class.0 of 0 people found the following review helpful.
