Too much of each chapter is about life in Italy, and culturally significant topic, which are nice but distracts from the main theme and makes it difficult to find the actual lessons needed. The online exercises contain mistakes and it takes hours to try to figure out if YOU are making the mistakes or the online learning center. FRUSTRATING! Additionally, the book is way to heavy, more so than any other book I have. 0 of 0 people found the

following review helpful. So much for saving money by getting the electronic versionBy CustomerBeware of buying e-textbooks on . This one said it included access to the e-learning modules that go with the book, but I did not receive the necessary access code. After multiple e-mails and calls to the publisher and the e-learning company, I was told that if the book isn't bought directly from the publisher, you have to purchase the access code - for \$124! I am not happy.0 of 0 people found the following review helpful. UsefulBy Marilyn WylderRequired text for my intermediate Italian class, which means ho dovuto comparlo. But it's proved useful in clarifying some grammatical questions. Yes, I recommend it. BTW, the price for a used copy was very good.

PIAZZA is an engaging and accessible solution for your introductory Italian course that accommodates your learning style at a value-based price.
