obsessed 5 year old. By Bianca Brown This is awesome. It's very hard to find a pocket illustrated dictionary with enough illustrations to make my son happy. The only problem I have with this one is that there are no definitions, and now he keeps asking me, "Mommy, what's a harrier?" and "Mommy, what's karyokinesis?" 0 of 0 people found the following review helpful. Mini Love By Sylvia D. Stocking stuffer, hostess gift or teaching tool... you will love spending time thumbing through the pages of this little gem. It's got all the favorites from the original, plus some new fun twists. I love that grandkids of all ages and grandparents both like it! Nothing to read and the illustrations inspire story telling from the older generations. True, simple, fun. Visual candy. It's a great teacher present too!

Since its publication in 2009, Pictorial Webster's has captivated legions of readers with its vintage charm. Now a selection of over 200 gorgeous engravings that once graced the pages of 19th-century Webster's dictionaries are gathered in this tiny treasure trove of visual wonders.
