John Farndon : Planet Earth (Illustrated Science Encyclopedia) before purchasing it in order to gage whether or not it would be worth my time, and all praised Planet Earth (Illustrated Science Encyclopedia):

Powerful photography and informative text work together to tell the amazing story of our planet. Fact boxes and diagrams highlight important information, and there are fun-to-do educational experiments, such as splitting light into a rainbow, making a volcano eruption or growing crystals.

About the AuthorJohn Farndon has written many reference titles for children and has twice been shortlisted for the Copus science book prize. Jack Challoner studied physics at Imperial College, London, and later worked in the

education department of London's Science Museum. Robin Kerrod is an established author of children's information books and is a former winner of the Copus science book prize. Rodney Walshaw graduated with a geology degree from Nottingham University, and obtained his doctorate at the Institute of African Geology in Leeds, England.
