Diana Nicoll, Stephen J. McPhee, Michael Pignone, Stephen McPhee : Pocket Guide to Diagnostic Tests (LANGE Clinical Science) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pocket Guide to Diagnostic Tests (LANGE Clinical Science):

0 of 0 people found the following review helpful. Five StarsBy Customerwonderful3 of 10 people found the following

review helpful. Poor for KindleBy PaulThis book is totally useless on the Kindle. Regardless of zooming or changing font so much of this book is published in tables and completely unreadable on the Kindle.

Now completely updated, this information-rich resource offers instant access to selecting and interpreting more than 350 commonly used diagnostic tests, including laboratory tests, microbiology tests, diagnostic imaging, and electrocardiography. Key references accompany each test to facilitate the practice of evidence-based medicine. "a lean, mean reference machine...seldom have I seen a book with such a high density of information." --Journal of Family Practice, review of 2nd edition

"This is a great concise book that tells you "at a glance" the most important things you need to know about any particular test/imaging study/EKG finding. I liked the previous three editions and I like this new one. This a great book to have handy when those oddball consultations come your way." "4 stars" (Doody's 2003-11-17)From the Back CoverOn-the-spot test selection and interpretation of all common diagnostic testsincluding risks and costs. *Select. Interpret. Diagnose. *For pocket, office, or library *Evidence-based information *350+ testsclinic to ward, imaging to electrocardiography *Diseases associated with abnormal results *Key references accompany each test *Algorithms, nomograms, tables "A lean, mean reference machine..." --Journal of Family Practice on the 1st EditionAbout the AuthorDiana Nicoll, MD, PhD, MPA: Clinical Professor and Vice Chair, Department of Laboratory Medicine, and Associate Dean, University of California, San Francisco; Chief of Staff and Chief, Laboratory Medicine Service, Veterans Affairs Medical Center, San Francisco.Professor of Medicine Division of General Internal Medicine Department of Medicine University of California, San FranciscoMichael Pignone, MD, MPH: Assistant Professor of Medicine, University of North Carolina, Chapel Hill
