I have been looking everywhere for a dictionary like this since my college dictionary fell apartBy Glenn V.I have been looking everywhere for a dictionary like this since my college dictionary fell apart. This one is even better. It has over 300,000 entries and a subscription to the big kahuna Oxford online dictionary. If you want compact and portable with a punch, this is it.1 of 1 people found the following review

helpful. Not excellent, but I still like it. By Benjamin It's a pretty good dictionary - not bad price for the tons of vocabularies included, and nicely compact book but still easy to read. This may not a super awesome paper dictionary - there is no alphabetical index, and the book cover is not hard cover (maybe there is the hard cover version available, but mine is paper cover..) yet, it's definitely functional for daily using. Additional feedback: There is NO picture inside of this dictionary, so it may not be helpful to get images in your head (that means, this book may not be excellent for your young kid's education). Usage doesn't appear frequently. But other basic explanations: such as punctuation, pronunciations and synonyms are mostly shown for every word in simple form. I personally like the Reference section which's located at the beginning of this book. You can check US states and President names, world countries and their capital cities, metric conversion and so on. This part is just a little bonus so you cannot expect too much, but that's still useful. I recommend this product maybe form the high school students. 4 of 4 people found the following review helpful. But I really like it I was looking for a big dictionarie for ... By VE270879 Jose Machado Actually is not that "pocket edition". But I really like it I was looking for a big dictionarie for a good price. I'm studying English, and this dictionary has all the words I need.

An all-in-one reference providing convenience, value, and the authority of Oxford dictionaries. The Pocket Oxford American Dictionary Thesaurus is the ideal, all-in-one portable reference, with a dictionary and a thesaurus combined in one handy, integrated volume. A word's meanings, synonyms, and antonyms are given in the same entry, allowing the user access to all this information at a glance. The text is fully updated with the latest lexical content, informed by Oxford's extensive language research program including the Oxford English Corpus, a unique electronic database of more than two billion words that allows us to offer the fullest, most accurate picture of the English language today. Hundreds of new words cover computing, ecology, technology, and many other subjects. The Dictionary Thesaurus includes helpful extra features such as a center Reference section, which includes thoroughly updated appendices. Within the text, usage tip boxes help users write more effective English. A completely redesigned interior lends an open, readable look that makes this reference accessible and easy to use. All this in a convenient paperback format, perfect for home, school, or work.
