From James Morwood : Pocket Oxford Classical Greek Dictionary before purchasing it in order to gage whether or not it would be worth my time, and all praised Pocket Oxford Classical Greek Dictionary:

That aside, extremely useful for students of Homeric literature.0 of 0 people found the following review helpful. Great service!By Roxann

SellersPurchased as a gift for a big Greek Mythology fan. The book was shipped immediately and everything advertised. I'm very pleased!0 of 0 people found the following review helpful. Greek-English DictionaryBy xoxolAll was good with the order. Except for cover of the dictionary I received has a different cover than the one on the picture. But insides are the same.

The Pocket Oxford Classical Greek Dictionary is a brand new dictionary that is ideal for beginners learning Classical Greek at the college level. It covers over 20,000 Greek words and phrases in clear, user-friendly translations, and over 4,000 English words in common usage. The dictionary also offers help with Greek to English sentence construction and prose composition, and provides grammatical guidance with tables of irregular verbs and a glossary of grammatical terms. Additional information includes a list of numerals, a guide to pronunciation, and a map of Greece.

This new dictionary will no doubt prove invaluable to those embarking on their first steps in 'real' Greek with the absence of a course book to guide them ... anyone undertaking post-beginners' courses either at university or elsewhere will also benefit greatly from this volume ... clear layout, large print and, genuine affordability ... the editors should be praised for the clarity of vision underpinning this dictionary, which will surely make a major contribution to the study of the Greek language.
