By Lou from Virginia Beach Not a concise and complete guide, does not contain instructions on many of the pockets square fold available, only a few. It does have a good historical viewpoint on how these bits of color came to be used on mens dress. Most important are tips on pocket square use, do's and don't's. I see the tie/pocket square sets sold at department stores in a different light - I will not buy them. I would recommend this book to others. Well worth the few bucks to fashion conscious man. I would buy from this vendor again. 2 of 2 people found the following review helpful. Five Stars By - Giovanni Antoinette Very nice book on pocket squares 1 of 1 people found the following review helpful. Four Stars By Jim S.
