Julia Pinkham : Polar Seas Encyclopedia Coloring Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised Polar Seas Encyclopedia Coloring Book:

Suitable for children of ages 8-10, this title depicts the world of sea creatures and plants that inhabit the Arctic and Antarctic regions. Including Adelie penguins and anemones, it covers kelp plants and killer whales, pelagic clam worms and puffers and many other forms of life, ending with zooplankton and zoster marina.
