I say that because upon flipping thru the textbook I discovered that you would need additional materials covering Brazilian Portuguese language for myself of course. The back of the textbook gives great vocabulary words alongside English translation. Also, nice illustrations throughout the entire textbook.2 of 2 people found the following review helpful. Excellent textbook for learning PortugueseBy Julia WalkerExcellent textbook for learning Portuguese. It presents a balanced view of the different ways the language is spoken in Portugal, Brazil and other Lusophone countries. And the short passages about various regions of the
