You will need the teacher book for that.If you have the teacher book - this is really a great training book!The book has a lot of extremely dull texts. However, it is a language book after all.So being entertained isn't really the purpose.8 of 8 people found the following review helpful. Better than I

thoughtBy T. FredrickWhen I used this book in my fifth semester Portuguese class, I was not satisfied at all. I found that it lacked a clear explanation of Portuguese grammar and I thought it not clearly organized. I have since changed my mind. Going back through, I found answers to a lot of grammatical questions and enjoyed the exercises also. It took a more open mind and a more mature learner to get what I got out of the book the second time.0 of 0 people found the following review helpful. Nice resourceBy La Vida Es ChulaUse this book to teach Portuguese. It is great!
