Lynn McAlpine, Cheryl Amundsen : Post-PhD Career Trajectories: Intentions, Decision-Making and Life Aspirations before purchasing it in order to gage whether or not it would be worth my time, and all praised Post-PhD Career Trajectories: Intentions, Decision-Making and Life Aspirations:

This book argues that post-PhD career planning should ideally begin at the same time as the PhD itself. Drawing from ten years of research and stories of close to 50 individuals, each chapter focuses on the stories of individuals who share common career intentions and how they negotiate these both before, during and after their studies. Each career trajectory is different as individuals planned and made decisions in the face of both expected and unexpected work, personal experiences and responsibilities. The book concludes with resources to help those who are currently planning or reflecting on their own career trajectories.
