This second volume continues the in-depth study of Third Reich era postcards. The highly productive years of 1937-1939 are covered in three basic postcard categories: Official issues, "printed to private order" for special events, and propaganda. As with Volume 1, all known variations are illustrated, plus special stamps and cancellations. This collector-friendly book contains hundreds of full-color postcards. Postcards are historical, attractive, and one of the last reasonably priced Third Reich collectibles...study them and buy them before they are out of the working man's reach. This series will be your guide.
