The author presents techniques that can be used to induce and maintain hypnosis, as well as methods of doing hypnotherapy. John does approach the discipline of hypnosis, so that at times the reader might have some technical concepts also. The book is very understandable if you

stick with it. I wish there were an accompanying CD with the book. Anyone seriously interested in what the power of hypnosis approach is should buy and read this book. 0 of 0 people found the following review helpful. The Future of Hypnotism By JWMEvery once in a while someone comes along in the fields of science, physics, psychology, and medicine whose work and creative insights initiate a paradigm shift. John Cerbone is that kind of someone, and his book, Power Hypnosis -- the Future of Hypnotic Sessions, reflects his work and creative hypnotic insights that will initiate such a paradigm shift in the field of Hypnotism.
