**Marcial Prado : Practical Spanish Grammar: A Self-Teaching Guide, 2nd Edition** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Practical Spanish Grammar: A Self-Teaching Guide, 2nd Edition:

4 of 5 people found the following review helpful. I'm disappointed in it By Dora A. Smith I bought this book because it appeared to emphasize grammar and grammatical exercises, and because it is full of tips of differences in vocabulary and usage between Spain, Latin America, and Mexico, that are very important and often hard to find. I'm disappointed in it. First, it is organized around the classic trip to a Hispanic country. You spend the first several chapters in fancy restaurants, learning concepts, like shrimp and lobster, that few people will ever need. And my purpose for learning Spanish has nothing to do with fancy restaurants or visiting another country. I was spending too much time fishing for words I'll never need instead of focusing on learning grammar, which was what I bought the book for. Second, each chapter throws sixty or seventy vocabulary words at you, and gives you very limited chances to practice them. This book couldn't even be useful to a beginning student of Spanish. I notice that the previous owner of the second hand

book was writing the answers to the exercises in the book, and never got past chapter 3.2 of 2 people found the following review helpful. There is not as much explanation as I would like for some of the concepts  
By J. Stearns  
There is not as much explanation as I would like for some of the concepts. The exercises became very difficult half way through and I had to rely on other sources for explanations of the concepts. This book seems more like a review rather than learning Spanish grammar newly.  
2 of 2 people found the following review helpful. Inexpensive way to learn Spanish  
By customer  
I found this book at the library. I used it for a few days and knew it would work for me so I ordered it and the advanced version. It will take a while to get through the book but for a low cost will self teach one a good working understanding of Spanish. It's no longer cheap to take a 2 year college course of Spanish so coming across these books is cost saving. I also downloaded a Spanish course for about \$19.00 that helps me to put simple sentences together. Very happy with this find.

The fast, easy way to master the essentials of Spanish Now, learning Spanish can be as easy as uno, dos, tres!  
Combining the quick-reference virtues of a phrase book with the learning tools of a full-fledged language course, this popular guide gives you a solid start. Completely revised and updated for today's usage, Practical Spanish Grammar gives you:  
\* A proven interactive format that has been tested, rewritten, and retested to ensure you can teach yourself at your own pace  
\* Exercises to reinforce what you've learned  
\* Clear explanations of approximately 80 percent of Spanish grammatical structures  
\* Over 1,000 of the most frequently used Spanish words  
\* Sample dialogues with cultural notes and lists of terms

From the Publisher  
This self-paced guide covers all the information offered in an introductory Spanish course. Each of the 15 accessible lessons provides a vocabulary list, a sample dialogue using these terms and a quick review of the grammar involved. It's an ideal tool for anyone who studies or interacts with our rapidly growing Spanish population. Now completely updated with multicultural information. Features over 1,000 of the most frequently used Spanish words.
