Most Italian language books are 100% in Italian, but this one has the instructions and explanations in English. There are a variety of exercises (gap-fill, translations, simple conjugations, and select-the-right-verb). I studied for a year through an online program, and one year at an Italian university. I live in Italy so the lack of an audio CD does not affect my studies. As a review guide to help a student advance or a tool for

private lessons, this book is great. A student still needs to speak and hear Italian, which this book does not offer. 0 of 0 people found the following review helpful. I am happy with the book. I use it a lot! 0 of 0 people found the following review helpful. Cannot Go Wrong. By rana verde. While studying Spanish I purchased the Spanish Verb Tenses by the same publisher and it was great, so I purchased this one in Italian, and it is great. Easy to use and presented simply and clearly. I am still not sure about my feelings for either book about the basic organization, but then everything cannot be presented at once (as I would like it) and the organization of the chapters works.
