What did I like most about this bookBy Drew R.[[VIDEOID:483070ccc19902c183cb20676528ef54]] Spanish Conversation is a book that will really help you to speak conversational Spanish. This book is filled with practical, everyday dialogues. You will learn Spanish words and phrases for real-life situations, such as:- Meeting at a Party- Expressing Your Opinions, Likes and Dislikes- Striking Up a Conversation- Making appointments and Informal Dates- Discussing Roommates- Narrating a Story About a

Traffic Accident- Retelling a conversation that took place between a mother and a kindergarten teacher

Another benefit about this book is that it has a ton of exercises to help reinforce the new Spanish words and phrases that I learned from the dialogs. Each of the books 12 chapters include between 10 and 12 exercises.

What did I like most about this book? Well, the Spanish that I learned was very practical. Many books teach Spanish that you'll never use in a real-life situation. But this book taught me conversational Spanish - really useful Spanish - that I can use in typical, everyday situations when speaking to Spanish-speaking friends or acquaintances.

After using this book, I can assure you that you'll find yourself speaking Spanish with greater confidence and speaking the language more spontaneously.

There is even an online section that will allow you to listen and improve your comprehension of spoken Spanish while also improving your pronunciation. It is one thing to read a conversation in Spanish but being able to actually listen to it in order to improve your listening comprehension is a completely different animal.

In closing, I want to leave you with a list of my favorite three learn-Spanish products available here at :

1. Easy Spanish Phrase Book NEW EDITION: Over 700 Phrases for Everyday Use (Dover Language Guides Spanish) Easy Spanish Phrase book. This is an economically priced, handy resource that easily fits into my back pocket. You can conveniently take it anywhere with you when vacationing in a Spanish speaking country in order to have more than 700 phrases in your Spanish-vocabulary arsenal. And unlike so many learning-Spanish books, there is also a section called "Computers and Technology" where you'll find Spanish vocabulary related to modern technology.
2. Learning Spanish Like Crazy Level 1 CDR - w/ Super Bonus Package - Learn Spanish Speak Spanish - New Improved for PC/Mac - Free Updates for 1 Yr LSLC is my favorite audio Spanish program because the program focuses on everyday, Latin American Spanish. This is a new and improved version with new content and new native Spanish speakers, and I find it to be much better than the previous version. The program is geared toward the foreign-language learner who wants to eventually achieve fluency in Spanish instead of someone who just wants to learn a few travel phrases. Compared to the other programs that I have used, this one does the best job at teaching you how to develop an authentic sounding Latin American Spanish accent. The program also comes with a very impressive bonus package.
3. 501 Spanish Verbs with CD-ROM and Audio CD (501 Verb Series) 501 Spanish Verbs. If you think you can accomplish fluency in Spanish as an adult without mastering conjugating Spanish verbs, you are only fooling yourself. This book is an absolute essential resource for learning how to conjugate Spanish verbs.
