Norma Lopez-Burton, Laura Marqus Pascual, Cristina Pardo Ballester : Pura vida: Beginning Spanish (Spanish Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pura vida: Beginning Spanish (Spanish Edition):

0 of 0 people found the following review helpful. That was one good thing. The otherBy TerriThis book came on the first day I was told it would arrive. That was one good thing. The other, it came with an access code(which I thought it wouldn't) so I was very happy with that! The book fits well in a binder and is exactly what I needed and I got it for a good price.0 of 0 people found the following review helpful. Worst ebook I've ever hadBy BuchokNo page numbers, and no ability to search the book for anything. Worst ebook I've ever had.0 of 1 people found the following review helpful. Probably the best spanish interactive book I have purchased thus farBy CustomerProbably the best spanish interactive book I have purchased thus far. The textbook as well as the excercises goes beyond the classic school teachings and really gets the student learning how to interact and use spanish in real life settings and situations- not

just basic word translations. I have used many Spanish textbooks and this one has been the best yet. Although slightly pricey, it is worth purchasing if you are really committed to learning Spanish.
