Wonderful

Resource for the Music Educator! By MuzakMan Written in a personal, casual way, this book tosses out tons of ideas for the Music Educator to potentially utilize and/or adapt for their own use. While you may disagree with many of her opinions, as I did, a little meditation on her intent can brighten the dimmest of ideas. It's a wonderful "sit and read for ideas to solve your problem" kind of book. Would recommend for any educators bookshelf!
