One of the most comprehensive Life Insurance books By Toyin BELLO Tony Steuer's book is one of the most comprehensive and informative books on Life insurance on the market today. Tony is genuinely interested in the welfare of consumers' money and dispels the myths on life insurance. I enjoyed reading the book. It provided plenty of samples of policy illustrations and explained how to evaluate an

insurance companies financial stability and their ability to pay their death claims. I am a Life Insurance agent, so I found it very useful in trying to understand the different types of policies and which ones to avoid and which ones that would be better suited for the consumer. Tony is a very intelligent man who knows how policies work and how to explain it to consumers and companies. I would give "Questions and answers: Life Insurance" 2 thumbs up and five stars. If you are a consumer getting ready to purchase a Life Insurance policy or have a policy that's up for renewal I would definitely recommend giving this book a read. 0 of 0 people found the following review helpful. Great resource
By Travis Paull This is an excellent book that describes a lot of the details of life insurance. He takes a neutral approach to cash value vs term which is interesting at times. For example, he doesn't tell the reader that the life insurance company keeps your cash value when you die, which makes it a rip off because you are paying for two things (insurance and savings) but only get one. He indirectly makes this point by mentioning that the life insurance company has less risk the longer you keep the policy. I learned a tremendous amount from this book. Thank you for being very informative. 1 of 1 people found the following review helpful. BORING....
By LOOTPOST This book was long and boring... There are better books that go straight to the point.
