This is EXACTLY what I was looking for.By Michael B.We are going to Napa Valley for the first time this October and I really want to get the most out of this trip so I have done lots of research and built a personal google map with all the places we want to see and go but when it comes down to you and your wife (co-pilot) in a rental car, nothing really beats a physical map with landmarks and great graphics. it certainly won't replace my google map but between the two we are going to be unstoppable in and around Napa. Thanks for a great product.0 of 0 people found the following review helpful. GREAT BUY!By Circle B RanchPretty darn good map for identifying where all of the current wineries are at in the Napa and adjoining valleys. Pretty much lists every winery I could consider, and the map gives you a relative distance for an accurate GPS location off of your phone.0 of 0 people found the following review helpful. The One Map You Need For Wine CountryBy Thomas UhlerThis is my go-to gift for friends headed to wine country. Mine is worn and dog-eared, but it's still the one tool you need to find your way between Napa and Sonoma. The vast majority of wineries are shown and the phone numbers and hours policies are invaluable. Great value!

A laminated, accordion-style folded map of the wineries vineyards of Napa and Sonoma from Healdsburg to Geyserville. Features index of wineries with address/hours/phone. Also includes index of tasting rooms and gourmet grocery stores.
