Mary Beth Green : R.C. Gorman, The Drawings before purchasing it in order to gage whether or not it would be worth my time, and all praised R.C. Gorman, The Drawings:

1 of 1 people found the following review helpful. A valuable monograph to understand Gorman, better than expected...By JAAAn excellent book and worthwhile purchase; good quality printing, large, extremely discounted prices (vs \$60 original retail), comprehensive (up to 1981), and personal -the commentary and writings are by friends, models, artists, and others in the biz who knew him. Gorman died in 2005 at 74yo a 'one-of-a-kind' artist and style, whose oeuvre I've come to appreciate more as I get older. I bought this book specifically because it focuses on drawings only, including 3 from his childhood and over 40 of his mature/mid career works, (nice repro's for a 35yo book). In my opinion, drawings can reveal more about an artist and their particular 'vision', than their 'major works' alone. Gorman must have been a fun guy, I think. He was in his late 40's at publication in 1981 so, it's a mid-career monograph book, and pretty dated But that should not dissuade you unless there's a more recent publication that includes 1981-2005 drawings(?) Overall, much better than expected. I'll try to upload better scans, if possible.0 of 0 people found the following review helpful. Five StarsBy DEBORAH L SCHLOSSERLove it.0 of 0 people found the following review helpful. Four StarsBy B Clare JohnsonAll good

Over-sized hardback book with dust jacket titled R.C.GORMAN: The Drawings by Mary Beth Green. Published in 1981 by Northland Press. Illustrated with black and white photographs and color reproductions. Bookseller since 1995
