Ragnars action encyclopedia 2By Nailer155This is not a book for the beginner. It has some good ideas and others that if you are not carefull will allow you to join the list of Darwin award candidates in one big hurry. The motto here should be if you don't know what your doing don't do anything.0 of 0 people found the following review helpful. It's okBy SamThis is an interesting read but it doesn't much how to as it does what is kind of information. Do not count on this for a lot of information.

Many of the people who bought volume one of Ragnars Action Encyclopedia contacted Ragnar to tell him they loved

having all that vital information together in one book, but could he please include information in the next volume on choosing the right weapon, assembling a sniper rifle, taking out tanks and APCs, avoiding police entrapment, doing your own medicine, fighting back at the politicians and IRS . . . The result is Volume Two, with more than 40 all-new chapters on topics that could be critical to you after Y2K.
