BUT shipping was a big issue. Map was wrapped in plastic in an oversized box which was crushed on one side. As a result the map was completely dented and creased. Surely shipping in mailing tubes would be the better choice. 0 of 0 people found the following review helpful. Great Map By JojoBI work with people in customer service who sometimes need to cover logistics as well. Unfortunately, they are not the greatest at figuring out where states are in regards to where WE are! (Locating Nebraska on the map was their 1st victory). SO, for the logistically-knowledgeable-deprived, a map is a great tool. They are learning where all the lower 48 states are located, especially with all of the trucks stuck in the snow, on route but in the wrong state, during the horrible winter of 2014. Please don't press me to show them Canada, I did explain it's to the North of the USA ... they are QUITE grateful 0 of 0 people found the following review helpful. Beautiful map By Ariel GlantzMy boyfriend and I are attempting to visit all 50 state capitals in the US. I bought him this map so that we could start to pinpoint the places we have visited (which includes much more than capitals at this point!). Not only is it a beautiful map with an old-fashioned look to it, it is large enough to see everything! I am very pleased with this purchase!

Parchment-like paper and rich, subdued colors give this map a sophisticated old-world style while delivering the digital accuracy and extraordinary clarity you'd expect from any Rand McNally map.
