The workbook is set up similar to an Elementary level workbook or slightly

higher. It's definitely for beginners but that made it fun for this beginner! I have the Pimsleur method of Greek and a few other languages, which do not have any visuals, only the cd's. It was nice to be able to see the words you are pronouncing...and more! 2 of 2 people found the following review helpful. Nice gift for people who try to learn Greek
