Real Help...For Real People!By TR Garland - #1 Best Selling Author of "Building The Ultimate Network"According to Wikipedia, the definition of HOPE is: "An optimistic attitude of mind based on an expectation of positive outcomes related to events and circumstances in one's life or the world at large". As such, I believe the name of the title of this book should be reconsidered. Because, not only does this book provide HOPE (i.e. an optimistic attitude)...it provides real, tangible HELP to those who need its Industry Leading Expert insight. I understand that many unemployed professionals are still attempting to "weather the storm" until something good comes their way. This book, with all of its Industry Leading Expert insight, will take the reader by the hand and guide them to actionable steps towards making their personal professional lives better.2 of 2 people found the following review helpful.
