From Random House : Recipe Keeper before purchasing it in order to gauge whether or not it would be worth my time, and all praised Recipe Keeper:

212 of 212 people found the following review helpful. this is a must have By Lori This is exactly what I was looking for. A three ring binder with 8 folders tabs where on the back side is a pocket to store recipes that you clipped, 80 pages of blank pages for you to write your recipes, and 20 plastic adhesive pages that you can save recipes that other people gave you in their own handwritten or type recipes. On the blank pages, it says Recipe then the next line it says, from. the the next line is servings then the next line is preparation time and the last line is cooking time. Then you list the ingredients on the left and you write down the directions on the right side. On the lower bottom, you can add any notes. Very nicely set up. I definitely need more than 80 pages of blank pages, so what I did was, I took one of the blank pages and copy it on the copying machine and makes lots of extra pages. Punch the holes and slip it right in the recipe keeper. I've taken labels and place it over some of the tabs because I don't need some of the categories that they had and I wanted to break down my baking recipes, so that I could sort out the cookies, cakes and pie section. I got three of these as I plan to make triplets copies and hand 2 of them down to my children as gifts. I highly recommend this if you are looking to store your recipes and have it in an organized fashion. The binder is good quality. UPDATE: 09/20/2009 Still using this to date and keeps every recipe organized. I now have 2. Have no problems with the binder

rings as they are still closing and opening with no problem. I still recommend this to every cook/baker. 50 of 50 people found the following review helpful. Perfect for me! By Kindle Customer I'm on a special diet so I collect recipes from everywhere, internet magazines, people.. etc. This recipe binder holds everything. Only a couple of negatives to cause me to give it a 4. It's a big three ring binder, makes it easier to accommodate those people who print on standard size paper, but also makes it a bit heavy and a little awkward in the kitchen. The divider tabs are preprinted so if you prefer different categories, you you have to mark over or make a sticky label to go over them. There are plenty of blank pages that you can fill in by hand if you like, or do like me and make a template on your computer and print out on them perfectly. There are handy pockets in the divider pages for clippings and there are several sticky filmed pages (like photo albums have) for recipes as well. 2 of 2 people found the following review helpful. Not what was expected - at all. By Laurie I ordered this based on the positive reviews. Not at all what I expected. First, there are not enough pages to keep recipes, so you need to order the suggested sheet refills. HOWEVER, the refills do not fit the book - they are too wide and the tabs would not be visible if you used these refills. I am returning these and not happy to have to pay the return shipping for something that was billed as "compatible"
