Dan DePasquale, Larry Peterson : Red Wing Stoneware Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised Red Wing Stoneware Encyclopedia:

5 of 5 people found the following review helpful. Encyclopedia?By J. AronbergDespite wonderful photography of the included stoneware items, the book is far from an encyclopedia of Red Wing products. Instead, it is a compendium, mostly, of rare items, barely touching on those "common" products which the majority of Red Wing collectors have in their collections. And, despite the attempt to be a price guide, the rarity of a large number of the pictured items makes it impossible to quote a value ("value not determined"). Sure, it is nice to see pictures of the unique items, but to label the book an 'encyclopedia' is misleading, I believe. After all, an encyclopedia is "a work that contains information on all branches of knowledge or treats comprehensively a particular branch of knowledge" (Merriam-Webster), and I don't feel that this treated the subject matter comprehensively.4 of 4 people found the following review helpful. Red Wing Stoneware EncyclopediaBy Diane E. WheelerI am very disappointed in this reference guide. It contains very

little detail information, does not show the bottom markings of the pieces, and is full of rare items rather than the ordinary. There's hardly any pottery vases and absolutely no dinnerware or cookie jars. Most of the items are advertising crocks that few of us will ever see. I am thinking of reselling it as it won't be very helpful to me. 0 of 0 people found the following review helpful. Great reference book with superb pictures. By John Steinbeck "Lee" I was very pleased with the like new condition of the book and it had very detailed reviews and pictures of Red Wing pottery, many I had never heard of. Very well written and the go to source for information and valuations.

Dan DePasquale and Larry Peterson provide a history of the Red Wing companies and identify the many unique stoneware items produced by them. Photographs include hundreds of items, many of which have never been seen in any book. For example, blue/white kitchen ware, churns, advertising pieces, and the Big Boy jugs. Additionally there are special sections of salt glaze water coolers, pitchers, and double stamp pieces. Particular emphasis has been given to unique items that have been found at the annual Red Wing Convention in Red Wing, Minnesota. Red Wing Stoneware Encyclopedia is a special book that will serve as an indispensable guide for identification and dating information. Both beginning and experienced collectors will find this book a valuable resource and a must-have addition to their library. 2010 values.
