If you are visiting the area and driving between the parks, this is a great tool. The detail on the hiking trails is more than sufficient, but the hiking maps offered by "Redwood Hikes Press" offer superior detail for the hiking trails. 0 of 0 people found the following review helpful. Wonderful map By Kay B. This map is awesome!!! It is waterproof to start, which makes it innately more difficult to tear than a normal paper map. We took this map when my boyfriend and I traveled to the Redwoods and it was incredibly helpful, and fun to look at! We have it hanging on our wall currently I highly recommend it even if you aren't travelling immediately. I am obsessed with the redwood forests so I probably would have bought it anyway even though I recently moved further away. Get this map! You won't regret it. Thanks Nat Geo, you're a star. 4 of 4 people found the following review helpful. Very good detail of redwood national and state parks By USA City Planner One of the best maps of area, provides good detail on trails and area roads along with elevation. This map is only surpassed by the map series created by redwood hikes press. Advantage of the trails illustrated map is the area is all on one map. I have lots of maps of the area and glad I got this one.
