J. T. Kent : Repertory of the Homoeopathic Materia Medica before purchasing it in order to gauge whether or not it would be worth my time, and all praised Repertory of the Homoeopathic Materia Medica:

1 of 3 people found the following review helpful. good but wrong product
By Catharina
The product was of good quality and very usable. The only complaint was that it wasn't the product I ordered. The picture showed a black book with yellow text on the cover and that was the one I was looking for.

Organized, Clear Concise
By Kathryn
This a fantastic repertory for the student or practitioner. I have tried many other repertories, and while each has something unique to offer I always return to Kent's Repertory to find exactly what I am looking for.

Product Dimensions: 22x14x6.2 cm (Large Size) - A repertory which is used by every homoeopath. Based on the original provings and information gathered till that time. Includes the art of repertorizing. Repertory is the inverse of a materia medica. It enables one to look up a symptoms of a given region and see the associated remedies. Most popular repertory. Finding the language patient represented.

About the Author
James Tyler Kent, A.M., Chicago, Illinois, Professor of Materia Medica in Hahnemann Medical College, Chicago physician and author of several valuable medical works, His contributions to the literature of the profession are known by their strength rather than their length, and include, more prominently, his "Repertory", "Homoeopathic Philosophy" and "Lectures on Materia Medica Kent died, on June 6, 1916 at Stevensville, Montana.
