She is a distinguished professor and is currently serving as President of Kappa Delta Pi's executive council. (KDP is an international honor society in education.)1 of 1 people found the following review helpful. Not worth the moneyBy A CustomerThere were very few items in this book that applied to teaching in

Colorado and, from what I know of other states, elsewhere. I thought it was interesting that NCATE approval was listed as important in the quest for a good teacher education program. She may want to do more research outside "her realm" the next time she chooses to write about this subject.

Coming on the heels of the media announcing a national teacher shortage, this book outlines why people become teachers and helps readers reflect upon their own history with teachers before making a commitment to a teacher education program. The pros and cons of the profession are discussed, as well as how to choose the right subject and grade. Common myths are explored and debunked, such as that old adage, 'Those who can do, and who can't, teach.' The book is designed for the general public as well as students in introductory courses in education. Also includes invaluable references and hints of employment.

About the Author Mary C. Clement was a high school Spanish and French teacher before she earned her doctorate in curriculum and instruction at University of Illinois at Urbana-Champaign. She served as the director of the Beginning Teacher Program at Eastern Illinois University for six years and is currently an assistant professor of education at Berry College. Her current teaching schedule includes orientation to education, general secondary methods, foreign language methods, and graduate courses in curriculum. She has authored two books, *Building the Best Faculty and Put Your Oxygen on First. . .and Other Strategies for Succeeding in Teaching*. She has also authored numerous articles on teaching and teaching-related subjects.
