South Florida Job Source - ReviewBy A CustomerIt is quite easy to see that this book was created with only one purpose in mind and that is to take people's money! 3/4 of the websites listed in the book are completely useless, they are either totally outdated or simply give you error messages; there are only about 50 names of people in the entire book and they mostly relate to CEO's and not HR managers; The information indicating how to prepare a job hunting campaign extends to only about 5 pages of completely general and useless information that can be found in any other job hunting book. To make the story short, do not waste your money purchasing this book, it is useless!!!

Over 6000 detailed job contacts in Miami and South Florida, including small and large companies, Fortune 500 corporations, non-profits, government agencies, and internships. Co-authored by the University of Miami Career Center, the book also includes job search strategies, interviewing techniques, sample resumes and cover letters, job web-sites and hotlines, industry publications, employment agencies, how to relocate, where to live and more.
