The scale and is so small you can't see any detail, towns are so close together the names overlap into a tangled mess, it does not have railroads, and the print is so tiny as to be unreadable except under bright light. I threw it out along the way. It's clearly time to give up entirely on printed maps- they're obsolete..2 of 2 people found the following review helpful. Am a bit of a mapaholic so know a good map when I see oneBy WordloverClear and detailed map. Am a bit of a mapaholic so know a good map when I see one. Recommend this - clear to read and colours not all muddled together - some topographers are probably a little colour blind - hence jumble of names, lines, etc.4 of 4 people found the following review helpful. Very detailed map.By natjVery detailed large map of southern France, east on one side and west on the other. We will be driving around and this map shows more roads and paths than any I've seen. It indicates places of interest, such as castle ruins. Can't wait to get there and try it out. I will update with accuracy report when I return from my trip.

Waterproof Tear-Resistant Travel MapNational Geographic's Adventure Map of Southern France is an invaluable tool for travelers seeking to explore the rich history, distinctive cuisine, and colorful landscapes of this remarkable region. Designed to meet the needs of adventure travelers with its detailed, accurate information, this map includes the location of cities and towns with a user-friendly index and a clearly marked road network complete with distances and designations for roads/expressways, plus secondary routes for those seeking to explore off the beaten path. With specialty content to include hundreds of diverse and unique recreational, ecological, cultural, and historical destinations, this map is a perfect companion to a guidebook. Among the many points of interest are national parks, campsites, beaches, ski resorts, golf courses, archeological sites, castles, churches, monuments, and more. The front side of the print map details the eastern region, from its border with Monaco and Italy to the east, and the Riviera (Cote d'Azur), Mediterranean Sea and Golfe Du Lion to the south. The reverse side of the map details Southern France's western region, extending from the Bay of Biscay to the west, Spain and Andorra to the south, and the Golfe du Lion to the east. Users will find a variety of helpful travel aids on this map as well, including the location of airports, railroads, and ferry routes. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of international travel.
