Mike Ellis : Spanish Slangue: A Fun Visual Guide to Spanish Terms and Phrases (English and Spanish Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Spanish Slangue: A Fun Visual Guide to Spanish Terms and Phrases (English and Spanish Edition):

3 of 3 people found the following review helpful. Great practice! By Patricia Taking Spanish class but everything is read and write. But for whatever reason on the Test you have to record yourself talking in Spanish. I have trouble pronouncing some of the words. If you don't say it clearly and properly, points take off your test. Speech so I ordered this to help me on my college language road. The little book is so funny but it works! I'm remembering how to pronounce words better and I use it as a quick reference when I am in a pinch. Thank you Mike Ellis. I'm now taking Spanish II. 0 of 0 people found the following review helpful. Fun and Easy By L. Williams Not exactly as pronounced in North Texas but close enough to be understood. A bilingual friend whose first language is Spanish told me not to worry so much about pronunciation because she and others would be able to figure out what was meant. She said, just like you can figure out what I'm trying to say even when my English isn't perfect. 14 of 15 people found the following review helpful. Basic Sayings but Very Helpful By Shilom I am taking Spanish this semester, and one of the things our professor recommended was making flash cards. So I asked him about this book before buying it, and all he really said was there was no such thing as a bad Spanish book. What I like about it is it kind of combines the idea of the flash cards with picture aids and pronunciations, which is the hardest thing to pick up on when learning a new language, that and the tones. While there's a lot more to learning Spanish, such as gender roles with words, placement, the/a/an/some - una/unas etc., and the turnaround in the sentencing; that their descriptive words come after a noun for example. El Casa roja = The red house. Anyways, this book is basically not for learning how to speak Spanish or

learning the basics of the language and its set up as much as it is to learn how to memorize certain sentences and phrases and HOW to SAY them, which is very helpful if, say, you know someone who speaks only Spanish or you are going on a trip. It's helpful as an additive to me, taking Spanish, with help in getting the pronunciation and tones down, which so far has been my hardest part, so I give it 5 stars. But if you are picking it up thinking you're going to learn to speak Spanish from this guide, it's not for that. It's just a simple translation guide, as it says, with fun visuals. Highly recommended! :)

Its simple: follow the illustrated prompts and read the English words out loud, and soon you'll be speaking Spanish. This handy, easy-to-read language guide is easy to carry and gives the basic phrases you need while traveling, asking directions, or ordering food at a restaurant. It also includes phrases for medical or legal emergencies, as well as terminology for hotels, airports, and so on. But most of all, it's just plain fun!
