Good quality binding, although it's not stitched, and thus won't lay flat. Text size is small, but readable. I am by no means an expert in BCS, but I'm a student, and so far, this has been a great resource. Definitions are clear, unambiguous, and example sentences are very useful.

Very small print. Bulky. A bit difficult to use as a result.

This is the only dictionary of SerboCroatian-English to give both American and British English and to give coverage of all the standards of SerboCroatian, namely, Bosnian, Croatian, and Serbian.

"Even in the 1990s, when Bosnia, Croatia, and Serbia are forming their own standard languages, Morton Benson's dictionaries still give the best available coverage of the vocabulary and are the most helpful to the foreign learner."
Wayles Browne, Associate Professor of Linguistics, Cornell University
"It is a pleasure to express the judgment that this work is a model of lexicographic excellence."
Library Journal
"This work...belongs on the shelf of every student of SerboCroatian. Highly recommended."
