Michele Jackman, Susan Waggoner : Star Teams, Key Players: Successful Career Strategies for Women in the 1990s (National Association for Female Executives Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised Star Teams, Key Players: Successful Career Strategies for Women in the 1990s (National Association for Female Executives Library):

A career guide for professional women stresses cooperation and teamwork and encourages women to discover a sense of mission, focus on goals, and transform career aspirations into reality. Reprint. LJ.

From Library JournalJackman, a business consultant, advocates the "star team" as a primary organizational vehicle of the 1990s--a concept that has antecedents in the military and organized sports and that is especially adaptable to the communication styles of women. Organizing a great deal of unwieldy information cogently and succinctly and using scores of interviews with successful women, Jackman defines and characterizes "star teams" and also specifies what it takes to become a "key player." Her tables and prepared exercises nicely emphasize her points. Her concepts coupled with her can-do attitude will certainly inspire women seeking to thrive in a corporate structure. Highly recommended

for all career/business collections. This is the first of a series of business books for women sponsored by the National Association for Female Executives.--Ed.- Christy Zlatos, Washington State Univ. Lib., PullmanCopyright 1991 Reed Business Information, Inc.
