A steampunk guide that goes well beyond simply gluing misc. items together By Dano from Chelsea Good photography of a wide range of very cool steampunk gear. What really sold me are the sections in the back of the book that give a DIY'er like me detailed info on creating some of the

gear. We're not talking just glueing various pieces of junk together and calling it 'steampunk' either. This is a translation from an original Japanese publication that goes well beyond casual construction into making your own camera-like irises out of thin pieces of metal, home anodizing and unusual methods of photo ageing and more. 0 of 0 people found the following review helpful. Five Stars By MaryAnn Metz Gift 0 of 0 people found the following review helpful. Four Stars By steampunk connoisseur Pretty cool. Arrived fast, and in good shape.

Defined by the Oxford Dictionary as a genre of science fiction that typically features steam-powered machinery rather than advanced technology, Steampunk has taken the world by storm, rapidly moving from literature into movies, games and fashion. This book is an indispensable guide for those looking for inspiration and projects to create, from robot arms to jewellery and goggles!

"The pictures in the book are gorgeous, glossy and a great deal of fun to look at." - Geek Girl Project
"Thank you Japan for having such wonderfully creative makers, and thank you Titan for bringing this gorgeous book to us." - Steampunk Canada
"There's something for every steam fan to appreciate." - Geek Dad
"Steampunk Style is an absolutely visually stunning book and highly recommended reading!" - Daily Steampunk
"Put it on your coffee table and your steampunk friends won't be able to put it down." - Steam Ingenious
"The DIY instructions are clear and the photographs are sharp and detailed. Even beginners can think of building something Steampunk-inspired. If you are tired of cosplaying anime or manga characters or not feeling the superhero Halloween costumes, then check this Steampunk Style book." - Retrenders
The best new books - got em yet? - SFX - Best New Books
A refreshing take on the strong steampunk aesthetic - SFX
If you're into Steampunk you are going to absolutely love this book... Seeing a Victorian-looking computer keyboard is going to spin a lot of people methinks. Fascinating. - SF Crownest (UK)
