Very helpful resourceBy Sam K.I haven't read through the entire book cover-to-cover yet, but I have browsed through quite-a-few pages, and have picked up various ideas that have proved to be very beneficial. Definitely recommend this resource to anyone seeking to, not only, update their resume, but also, enhance it significantly. Meticulously thorough with lots of practical and strategic helps. The format is fairly easy to use. I don't plan on going through each and every page as it will prove to be very laborious. All-in-all, this is a must have for anyone seeking to upgrade their resume to current market standards.0 of 0 people found the following
