Samir Mehta, Adam Mirarchi, Edmund Milder, Eugene Milder : Step-Up: A High-Yield, Systems-Based Review for USMLE Step 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Step-Up: A High-Yield, Systems-Based Review for USMLE Step 1:

0 of 0 people found the following review helpful. Four StarsBy JNot as good as First Aid12 of 14 people found the following review helpful. Get it, get it, get it....!!!By Freddy SallentThis is a very nice system based review for the Step 1. I wouldn't say it's better than the First Aid, but it sure complements your studies pretty well in conjunction with it. The book has a few mistakes but they're very easy to recognize. I Definitely recommend it for a rapid review.1 of 6 people found the following review helpful. comparable to first-aidBy LvwrtsI haven't taken Step I yet, but so far I have been using it along with my classes on system. It is very helpful. I love the charts!

Step-Up is designed as a single-volume, concise yet comprehensive review book for 2nd year medical students

preparing for the USMLE Step 1. This Second Edition addresses the new format of the USMLE Step 1 by incorporating a systems-based orientation, clinical integration of content, and expanded clinical cases. The book presents information in different ways in order to suit different learning styles. It includes material in bulleted, "high-yield" form, comprehensive illustrations and tables, clinical case studies, and "Quick Hits," or clinical "pearls" in the margin. View the errata for the 2nd edition of Step-Up.
