My 2-year old and her older cousins loved using these stickers in the book to make pictures, as well as to put in the book (the intended purpose). There were tons of stickers - enough to keep them busy each evening for a week long trip. I would highly recommend this book. It was worth the cost for the great stickers alone. The book is an added bonus.0 of 0 people found the following review helpful. Just fine shipping. Nice ocean life sticker bookBy CathyBJust fine shipping. Nice ocean life sticker book.
