David Burke : Street Spanish 1: The Best of Spanish Slang before purchasing it in order to gage whether or not it would be worth my time, and all praised Street Spanish 1: The Best of Spanish Slang:

0 of 0 people found the following review helpful. Amusing Book Helps Me Write Fiction By Anne Wingate I'm going through all my old orders to review anything I have previously failed to review. I am writing several novels set in South Texas, and I need to be sure the slang is accurate. I bought this book after my middle daughter took me on a tour of San Antonio. I'm finding it very useful and interesting. 21 of 22 people found the following review helpful. A great

book on Spanish slang
By John Moore
Street Spanish 1 is the best book I have come across on Spanish slang. It provides a wide range of phrases and terms not generally found elsewhere, but which a native speaker would normally use when talking to friends or family, or which often crop up in movies and books. In other words, it teaches the real Spanish that is needed to promote a better understanding when conversing with or listening to native speakers. The dialogues are made up of the most popular slang expressions that are used in various Hispanic countries, allowing their usage to be observed in context while on the facing pages an English translation is provided for easy reference. The vocabulary section that comes at the end of every dialogue focuses on each slang term and explains its usage even further by means of additional examples, while synonyms, antonyms and variations used in different countries are included to ensure that a thorough grasp of each term is reached. To gain that extra edge, this book is highly recommended for travellers and students alike. (Having the cassettes, which are not part of the package, would be an added bonus since you would hear the dialogues being spoken by natives of Mexico, Argentina, Peru, and Spain, providing a better feel for the language, its speech patterns and the varying pronunciations).

By Jay Davis
I have owned a previous edition of this book for a long time. I liked it so much that in subsequent years I have bought three more copies as gifts for friends.

If a native Spanish speaker were to tell you that the pez gordo (fat fish) met a merengue (meringue) with lots of pasta (noodles) who is going to become his media naranja (half an orange), you may not know whether to offer your condolences or your congratulations -- that is, unless you've read this first book in David Burke's Street Spanish series. Street Spanish 1 lets you quickly become an insider by presenting some of the most popular slang terms used throughout the many Spanish-speaking countries. With the help of entertaining dialogues, word games and drills, crossword puzzles, and word searches, you'll finally be able to understand the everyday language used on the street, in homes, offices, stores, and among family and friends.

Language Notes
Text: English, Spanish
From the Publisher
Learn the fundamentals of Spanish slang in 10 easy lessons. This book provides you with the conversational Spanish that will help you talk to people, conduct business, read books or watch movies in the Spanish speaking world, and it gives you all the slang you need to enjoy conversing in everyday Spanish.
