**David Burke : Street Talk-1: How to Speak and Understand American Slang (v. 1)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Street Talk-1: How to Speak and Understand American Slang (v. 1):

38 of 38 people found the following review helpful. Excellent survival guide for foreigners By Dek Csaba 'Street Talk 1' is my favorite book on the topic. Although I have a decent collection of slang dictionaries, I found this one to stand out for several reasons: First of all, it is full of terms that are ACTUALLY USED in the US today. No big deal, you

might say, but most of the other books available on US slang would only be useful if the professors writing them could first convince Americans to learn and use the expressions contained in them ;) Secondly, the EXERCISES at the end of the chapters are VERY HELPFUL to learn the expressions. I recommend this book to every foreigner trying to learn how to communicate with Americans. 0 of 0 people found the following review helpful. Street talk By Carlos Gomez Some people talk with a lot of modism. Excellent book to learn slangs You will get a story on one page of the book with pure slang and other page you get the same story and the formal way of speech 0 of 0 people found the following review helpful. Excellent Slang Text By Jerry Stark This book is an early version of the Slangman series and good in itself. We use it for our regular classes and in our TESOL Voyages program.

Street Talk 1 contains more than 1,150 commonly used American slang terms and expressions...the words and phrases heard everyday that don't always make sense. If you are confused by American English and would like to speak and understand like a native, you need to read this book! Street Talk 1 is the first self-teaching book on American slang that is written for the non-native speaker. Readers will learn the "inside" language that is heard in everyday conversations, at the movies, on the radio, and seen in books, magazines, and advertisements. This often mysterious language of slang and idioms is clearly explained through dialogues, pronunciation tips, word games, and illustrations.
