Streetwise Maps Inc : Streetwise Venice Water Bus Map - Laminated Vaporetto Venice Map for Travel - Pocket Size before purchasing it in order to gage whether or not it would be worth my time, and all praised Streetwise Venice Water Bus Map - Laminated Vaporetto Venice Map for Travel - Pocket Size:

7 of 7 people found the following review helpful. Save Your MoneyBy LaylaI bought this map because the last time I visited Venice (years ago!) there was no map. It is now very tourist-friendly and signage is good, The water bus or Vaporetto map is readily available in Venice when you buy your pass. The watercraft routes change slightly to accommodate need, so I think that a map gets outdated.This map is too small to read and was not helpful on my recent trip to Venice. Buy a map in Venice and buy it where you get your Vaporetto pass. And don't buy one trip at a time, get the full 24 hour pass. You will understand why.3 of 3 people found the following review helpful. Perfect...By OneWomanSpiritDon't go to Venice without this litte map. It's super small, folds into thirds and fits in a shirt pocket. Even though we rode the vaporettos only two days, it was great to have a quick look at the next stop and to plan where we could get back on, etc. I order the Streewise Venice map (also perfect!) and this Water Bus Map is included on the larger map. That said, this is still super convenient to just pull out of your pocket for a quick glance. On my way out of town I gave this map to another couple in the train station just arriving in Venice.0 of 0 people found the following review helpful. a good thing in Italy if your cell drops receptionBy Beckvery helpful in Italy.

Streetwise Venice Water Bus Map - Laminated Water Bus map (Vaporetto) of Venice, Italy - Folding pocket wallet size metro map for travelOne of the best ways to see Venice and travel around Venice is by water. The Vaporetti or water buses are the public transportation of Venice. Sooner or later, a traveler to Venice will eventually find themselves on a Vaporetto. So for the enlightened traveler, who seeks unique travel experiences and anticipates the crowds of Rialto and San Marco, the STREETWISE Venice Water Bus Map is the perfect tool to help navigate in and around the island of Venice and throughout the Venetian Lagoon Islands. This pocket size trifold laminated map has all the important Vaporetto lines drawn to indicate year round routes and summer only lines. Really, what could be more practical and romantic than to travel early evening on the number 1 Canal line as the lights begin to turn on in Palazzos along the Grand Canal. Because Venice is built with small narrow streets which cannot provide you with an angle to see entire buildings, there are views from the Vaporetto that beats anything you can see on land. San Maria della Salute at the juncture of the Grand Canal and the Fusina Canal is a perfect example. All lines are color coded and each Vaporetto station is labeled by name and route number. These features enable the visitor to distinguish between routes which zigzag between as many as 20 stations from the circular routes which run in two directions.Our pocket size water bus map of Venice is also laminated for durability and accordion folding for effortless use. The STREETWISE Venice water bus map is one of several detailed and easy-to-read maps designed and published by STREETWISE. Buy your STREETWISE Venice water bus map today and you too can navigate the Vaporetto like a native. For a larger selection of our detailed travel maps simply type STREETWISE MAPS into the Amazon search bar.
