I am not at all satisfied with it, specially as it was really expensive. The study book is also filled in. I am not satisfied with either of my purchases. 0 of 0 people found the following review helpful. Five Stars By john guidon Came in exactly as described and early. Thank you. 8 of 11 people found the following review helpful. Completely useless! By Sue When I bought this for and it wasn't cheap, I thought it would entail answers to the activities. Song and video activities are promised but you don't get an accesskey? You can't know if you have answered the questions correctly and you can't log in because there is no way to log in!!! Please don't throw away your money on this! The seller (bookholders.com) didn't take any responsibility for the missing accesscode either!!!

The newly revised workbook and laboratory manual reinforce and expand upon the content of the text by providing contextualized writing, listening, and grammar practice as well as engaging new song and video activities.
