Five StarsBy Wanda RomanExcellent0 of 0 people found the following review helpful. Four StarsBy Adam NivensVery good

An integral tool to help students master the course material, this essential component follows the organization of the

main text and provides additional out-of-class practice. The "Activites ecrites" in the Workbook give students the opportunity to apply and practice material presented in the textbook, including vocabulary, structures, and cultural information. "Perspectives culturelles" sections provide more practice with the cultural notions and "Voix en direct" speakers. With its "Activites de comprehension et de prononciation", the Lab Manual includes listening comprehension activities and instruction in pronunciation. The SAM is also available electronically in the iLrn: Heinle Learning Center. Instant access can be purchased via <http://www.CengageBrain.com>.

About the Author Kimberly Jansma directs the French Language Program at The University of California at Los Angeles, where she supervises teaching instructors and teaches language, culture, and linguistics courses. She has published pedagogical texts and multimedia materials and presents her research at major conferences. Dr. Jansma's areas of interest include hybrid language instruction, second language acquisition, and sociolinguistics. She received her Ph.D. in Applied Linguistics from the University of Texas at Austin. Margaret Ann Kassen, who received her Ph.D. at the University of Texas at Austin, is Associate Professor and Chair of the Department of Modern Languages and Literatures at The Catholic University of America in Washington, D. C. She teaches undergraduate French and applied linguistics courses and works with graduate and undergraduate teacher preparation. Her research interests include foreign language writing, performance assessment, technology-enhanced language learning, and instructor development. In addition to presenting at conferences, Dr. Kassen has published articles on technology and writing and edited a volume on developing self-direction in foreign language learners.
