Sudanese ArabicBy ramcamThis is a great dictionary even though everything is spelled phonetically, it helps if you are still trying to get used to hearing the Qaf pronounced as a G0 of 0 people found the following review helpful. Highly recommend!By CustomerVery helpful book, easy to understand and practical. First and only book I have found that knows how to address the linguistic nuisances of Sudanese Arabic. Highly recommend.0 of 1 people found the following review helpful. A great resourceBy ComfortFoodVERY helpful indeed. I've used it as a reference quite a bit now. It's great that the Arabic words are both in Roman script and Arabic script, so both I and the person I'm working with can read them.

This dictionary has been produced specifically as a resource for foreign learners of Sudanese Arabic. The language is spoken in Khartoum and throughout most of the Republic of Sudan, but it is essentially an unwritten language, since Modern Standard Arabic is almost always used for written communications. Foreigners therefore do not find it easy to learn the spoken language, though some coursebooks do exist. So this dictionary will be invaluable for both beginning language learners and those who have already made progress in learning the language. It should supply all the vocabulary needed for everyday conversations and many working situations. Rianne Tamis holds an M.A. in Semitic Languages from the Catholic University of Nijmegen. She has worked at the Catholic Language Institute of Khartoum since 2002 as assistant director, course editor and teacher of Sudanese Arabic. Janet Persson has an M.A. in Linguistic Science from Reading University. For many years she has been involved in linguistic research with SIL International in a number of languages, including Sudanese Arabic. She and her husband Andrew are the authors of Sudanese colloquial Arabic for beginners.
