Past s from the 2015 Edition First Kindle By Crystal Raine on July 21, 2015 Format: Kindle Edition Verified Purchase I have the honor of writing the first Kindle review of Super Man's Resume: A Beginner's Guide to Resume Writing, and Beyond by LS Wagen. (Plus, this is my very first book review ever after having purchased numerous books and Kindle books). I am like many job seekers trying to find my way in a much too complicated world. Ms. Wagen's book is an entertaining and helpful guide following the "Superman" character. Her book is quite detailed and her audience is suited toward all ages and backgrounds, and not exclusively recent traditional college graduates. The tone is enthusiastic and encouraging to the job seeker, unlike most dull job hunting material. I learned that resume writing and job seeking can be fun and adventurous like her "Superman" character. The book gives hope to the hopeless and shines light on a difficult subject. Buy the book and you won't be disappointed.... extensive research and experience for job seekers by reading Super Man's Resume By Amy Eggebrotten on July 13, 2015 Format: Paperback Verified Purchase I saved time and benefiting from the author's extensive research and experience for job seekers by reading Super Man's Resume: A Beginner's Guide to Resume Writing, and Beyond (by LS Wagen).
