Dan Rivera : Superstar Job Interview: Leveraging the Power of Mind Maps and Job Interview Portfolios To Get The Job! before purchasing it in order to gage whether or not it would be worth my time, and all praised Superstar Job Interview: Leveraging the Power of Mind Maps and Job Interview Portfolios To Get The Job!:

0 of 0 people found the following review helpful. a job interview must!By Joe AuerThis book contains some really

innovative and creative ways to approach preparing for a job interview. A great resource for anyone seeking success when attempting to "land that job". Well done Mr. Rivera.

The resume is now over 500 years old (thanks Da Vinci!), and job interviews are a pain, but unfortunately there is no getting around either of them. This book will guide you in making sure the interview goes as smoothly as possible; but better yet, if you follow the basic steps outlined in the book you will be more confident during the interview, and you will do a fantastic job of impressing the interviewer with more than just a resume and talk - but actual samples of your work. The methods I go over through the 18 chapters are time-tested by me personally. I can show you how to use them because I know they work - for me, as well as for those who I have instructed in these methods.

From the Author I purposely tried to keep this book short and to the point. As a result, there is minimal fluff here, with the main focus being an action list that will make sure that in your next job interview you present yourself and what you can do to maximum effect.
