I've found them to be a good general curriculum to follow while using other tools to help learn Korean. You'll also want to pace yourself and review previous lessons as you go along. I do recommend using other resources as well. The workbooks and lessons don't really cover things like reading and writing Hangeul in detail. They have a separate lesson/book for that though, if you want. I have some iPad apps that I

use to learn those. I enjoy the audio lessons. They aren't too long, but long enough to learn something new. The workbooks help a lot with practicing and committing the lessons to memory. If you haven't tried TTMIK before I recommend listening to some of their lessons from the beginning. Doing that on their site is free. If you like what you hear and want to continue I highly recommend picking up the workbook. 2 of 2 people found the following review helpful. Highly recommend for Korean beginners! By Natalie If you are new to the Korean language, this book is definitely the best learning tool for you! Talk to Me in Korean has free audio lessons online that correspond with this book. The audio lessons are great as well. The lessons are bite sized, and are easy to process. The activities in the book are also very helpful in putting what you learned to practice. Honestly, there isn't a better book out there. I would recommend all of their materials. 2 of 2 people found the following review helpful. however she wanted it as a Christmas gift which was awesome.
